

Henrique Aguiar

Introducing our New Southern Alberta Business Manager

Announcing: Henrique Aguiar, New Southern Alberta Business Manager.

Please join us in welcoming Henrique Aguiar as our New Southern Alberta Business Manager.

Henrique joined our company in 2020 as a Corporate Management Trainee and quickly demonstrated an affinity for our business and corporate culture. Learning the nuances of our industry through the various training stages of this program, including learning directly under his predecessor, Bob Fonger, and working in several other branches under the tutelage of management there, has enabled Henrique to put his business management education to good use and helped him grow both personally and professionally.

In his new role, Henrique will demonstrate his strong leadership and management skills by developing and growing our team, strengthening existing customer and vendor relationships, and expanding the Noramco presence in the Southern Alberta market.

We are excited to welcome Henrique to his new role as the Southern Alberta Business Manager!
