

INDUSTRIAL PROJECTS

A TRUSTED PARTNER FOR OVER 50 YEARS

WHY CHOOSE NORAMCO?

Noramco is a master distributor of wire and cable and related connectivity products proudly operating across Canada for over 50 years. We have built our reputation on providing high-level technical knowledge along with exceptional sales and service support for large industrial projects. From electrical design to installation, our experienced industrial projects specialists are a cross-functional team with diverse expertise of cabling and its application. Noramco has positioned itself as the preferred supplier of wire and cable, connectivity, pathway and tooling products within industrial, resource, transportation and public utilities markets.

INDUSTRY SPECIALTIES

Transit

OUR RECENT PROJECTS

PETRONAS GAS PROCESSING PLANT

The Town North Sour Gas Plant is part of a large development plan by Petronas in the North Montney formation - part of Northeast B.C. With an estimated 1 Billion Dollar per year capital expenditure, Petronas is committed to continued development year over year.

- Provided all cable requirements from medium voltage to instrumentation
- Multiple PO releases based on site requirements
- Custom tagging
- Complete material traceability

McLOUGHLIN POINT WASTEWATER TREATMENT PLANT

The Wastewater Treatment Project includes a tertiary wastewater treatment plant at McLoughlin Point, Esquimalt. The treatment plant is designed to minimize visual impacts from the water and includes a multi-level green roof, mature landscaping, an observation deck, and education space.

- Station is responsible for 108 Megalitres of water/day
- Project value of \$775 million
- Custom tagging
- Vendor data documentation

GREAT PLAINS POWER STATION

A new 360-megawatt (MW) natural gas plant in Moose Jaw's Agri-Food Industrial Park. The new power station will provide power for about 360,000 homes in Saskatchewan and support renewable power generation and coal retirements.

- Provided Teck, ACIC and Tray cable
- Project value of \$760 million
- Provided customer cabling solution
- Multiple PO release based on site requirements

OUR RECENT PROJECTS

Edmonton Light Rail Transit (LRT) Valley Line

The new Edmonton Light Rail Transit (LRT) Valley Line is a 20 km extension to the existing Capital and Metro Lines. WPE performed the electrical scope of work for the light rail system and will be supplying and installing for the substation, train control, and catenary systems.

- Provide all cable requirements
- Material storage, master reel procurement
- Multiple PO releases based on site requirements
- Custom tagging
- Complete material traceability

G3 Terminal Vancouver

The G3 Terminal is designed to optimize grain receiving, storage and shipping while improving supply chain efficiency, food security and supporting the Canadian economy. The facility can receive up to three 150-car trains on its innovative loop track, which unload while in motion and travel back to the prairies without detaching from their locomotives.

- Provide all cable requirements
- Specialty cable for harsh environment
- Multiple PO releases based on site requirements
- Custom tagging
- Complete material traceability

NESTLÉ PLANT EXPANSION

Nestlé Canada invested \$41.8 million on its Ice Cream factory in London ON increasing production capacity and resulting in 88 new jobs. The 26,000 sq ft expansion project created two new production lines to prepare for growth in the sector as well as to prepare for future growth.

- Provided all cable and accessories
- Time PO releases based on site requirements
- Guaranteed pricing
- On-time delivery

Our service-centric, solutions-oriented team have the knowledge and skills to manage any size of project and can add significant value in all aspects of the project cycle. Working with Noramco, we become an extension of your team – knowing the ins and outs of your project and being able to help manage any aspect along the way.
